Portfolio

Personal Profile

I am a hardworking and enthusiastic individual, who is eager to learn new things and gain experience as a Junior Software Developer. Currently, I am actively engaging in honing my Software Development skills and am gaining valuable experience. Looking ahead, I aspire to take on more challenges and advance my skills in software development.

Education and IT Training

12/23-Present	**Just IT Training Ltd, London** **Digital Skills Bootcamp: Software Development** A twelve-week intensive bootcamp covering the fundamentals of Web and Software development.
09/19-06/2021 **Level 3 IT:**	**Ernest Bevin College, Wandsworth** **BTEC IT Level 3**(Triple Distinction)
09/14-06/19 **GCSE:**	**School, Location** 6 A-C grades in subjects including Maths and English

IT Skills

Software Development Skills: I have Frontend and Backend software development skills.

Web Technology: HTML/CSS using Visual Studio code.

Core Programming Languages: JavaScript/Python Core languages.

Projects: I have made several projects, including Weather App, Car retailer and Database Projects.

Employment History

12/21 - 01/22	**FRAISERS/SPORTS DIRECT, Colliers Wood** **Sales Assistant**

Serving Customers in footwear I had to find products the customers are looking for in the stock room, this place had to be always organised for ease of access. Actively listening to the customer and smiling when giving customer service ensuring the customer is satisfied. Working with a team we had to rely on each other help when a teammate needed some assistance and being flexible.

04/22 - Present	**Primark, Wandsworth** **Sales Assistant**

Working in Primark I had to make sure the clothing displays, tables are always up to standards and presentable, helping customers find the clothing, items they are looking for. Splitting the work with the team I worked with has helped finish the work on time and assisting anyone that needs help.

Interests and Achievements

Computing: I enjoy making websites as challenges or to help friends and family. Completed projects such as a Car Retailer website, Weather App, and databases projects. Other interest I have are creating 3D models using software's such as Blender, playing sports like volleyball and working out.
